

NuTru[®] PRESENTS

Purium Apothe-Cherry[™]

Over 7,000 Oxygen Radical Absorbent Capacity Units (ORACs)

Purium's Apothe-Cherry[™] Concentrate is high ORAC Cherry Juice that promotes healthy joint function, and also in certain cases leads to enhanced sleep.*

- ▶ Well known for improving uric acid elimination, and thus reducing uric acid in the body, this product is made from sour or tart cherries, which many consider to be one of nature's most vital foods. Apothe-Cherry[™] juice aids in joint function as well as helping you to get a better nights sleep, resulting in regular sleep cycle with a naturally occurring form of Melatonin.*
- ▶ This special cherry mixture contains over 7,000 Oxygen Radical Absorbent Capacity units or ORACs. There are approximately 16 servings per container if you take 1/2 to 1 ounce, or approximately 1 to 2 teaspoons of concentrate, in 8 to 10 ounces of water or juice. It is best to take less before strenuous workouts and more before going to bed.
- ▶ People have historically used black cherries to help control Gout and to reduce acidity in the body, especially uric acid. Each ounce of this special cherry juice is equivalent to the juice from approximately 33 sour cherries, or more than 100 black cherries, and contains anywhere from 2 to 6 times more of the phytochemicals that are a key factor in reducing arthritic symptoms, Gout, and in promoting a more restful nights sleep.* They contain more anthocyanins than blueberries, black cherries, or even acai berry. This is truly one of nature's superfoods. Use it every day and you will see the difference.

This product is manufactured by Purium under their brand and sold under their own trademarks by NuTru, Inc.

Another great all-vegan product distributed by NuTru[®] that makes 60, 70, and 80 year olds feel like they are 40! We have all heard that 60 is the new 40 and that 70 is the new 50, make this dream your reality.
